GET.invest and predecessor program (2016-08/2021)

Solife: Decarbonising St. Vincent while minimising land use

[Read more](#)

St. Vincent and the Grenadines

The company

Rooftop solar leasing construction for industrial buildings that will provide electricity to the grid

The challenge

Scale up the company and realise its full potential in St. Vincent and neighbouring OECS

Our support

Access-to-finance & investment strategy advice, and business model validation.

Expected results

€6 million investment volume mobilised

Expected impact

Local portfolio of 10 MW with a mix of rooftop and ground mounted PV systems under an IPP agreement, contributing to decarbonisation in St. Vincent.

“It was imperative that the Solife Board of Directors aligned with a team that is professional, has a diverse network, and industry leading advisory personnel for our project to get off the ground and scale. GET.invest supported us with all of that and more.”

Ricardo Boatswain - Managing Director at Solife

St Lucia Development Bank: Providing climate resilient, green housing for communities at risk

St. Lucia

The project

Safe and affordable green housing for communities living close to the waterline

The challenge

Preparation of a project definition document of the green housing concept

Our support

Assist SLDB with their application for the Green Climate Fund (GCF)

Expected results

€50 million investment volume mobilised

Expected impact

Climate-resilient, safe housing for 4000-5000 people

“We could not have come this far without the assistance of GET.invest. They instantly recognized the potential from our concept note.”

Vincent Boland – Managing Director at SLDB
